

Statement of Work (SOW)

Project: Azure Databricks Ingestion Pipeline

Client: [Client Name]

Consultant: David Herbert / DMH Consulting

Date: [Date]

1. Project Overview

DMH Consulting will deliver a **production-ready Azure Databricks ingestion pipeline** to move data from a specified source system to a defined Azure destination. The project is fixed-scope and delivered directly by David Herbert.

This SOW is for a **defined, one-off build**. No ongoing support or retainer is included.

2. Scope of Work

Included:

- One data source integrated (API, database, or files)
- Data processing in Databricks (as agreed)
- Ingestion into Azure destination
- Databricks job configured for on-demand or scheduled execution
- Basic documentation and handover notes

Excluded:

- Ongoing support or maintenance
 - Performance tuning or SLA guarantees
 - Cost optimisation
 - Architecture redesign
 - Work within regulated financial services environments
-

3. Deliverables

- Fully implemented pipeline in client's Azure environment
 - Databricks job ready to run
 - Handover documentation including:
 - Source mapping
 - Job configuration
 - Quick start instructions
-

4. Timeline

- Estimated effort: 5–10 hours
- Delivery window: within 7 days of agreement
- Start date: [Start Date]
- Completion date: [End Date]

A short clarification call will confirm source complexity and timeline.

5. Pricing & Payment

Total fixed price: £[Amount]

- Payment terms: 50% upfront, 50% on delivery **or** 100% upfront (as agreed)
 - All payments via [Bank Transfer / PayPal / etc.]
 - VAT excluded (if applicable)
-

6. Acceptance Criteria

The project will be considered complete when:

- Pipeline runs as agreed
 - Documentation delivered
 - Client confirms receipt of deliverables
-
